that men might see that they were comely from the waist downward. And the words of their singing no man could understand; for verily they meant nothing; but their dancing meant a great deal, and was under-stood of all men. And they found favor in the eyes of the men of Gotham. But in the eyes of the women of Gotham they were naught; and they said, what are these much by them? Do they not wear garments that begin low and end high, which is an abomination, and worketh confusion?

If aged clergymen will color their silver locks, it only proves that they have erroneous notions of the picturesque, nothing being fitter for the father of a flock than a "frosty pow." At a late meeting of the Baptist Association at Oneida, a shepherd with raven hair and beard, who was known to be pretty well advanced into the vale of years, proposed a resolution deprecating the use of tobacco. He NIEBEL & PENNINGTON was countered at once by a reverend devotee of the Indian weed, who beg-ged leave to offer a resolution against hair dye! It is not stated how the matter was settled, nor is it a matter of much consequence. It isn't treating ministers of the Gospel fairly to expect them to be perfect.

BLINDFOLD TRIALS

Against Steinway's, Chickering's and other Pianos.

W.E. the undersigned, make OATH that at the time of the last Fair of the American Institute, held in New York immediately following the French Exposition in Paris, two Planos made by Steinway & Sons, one Pinno made by Chickering & Sons, one Patent Arion Plano, made by G.C. Manner, and several other makers' instruments were tried against each other, by order and under control of the officers of the Institute, in decide which Plano and an impartial trial, force all of said Planos were covered with papers, so that one Plano could not be distinguished from another, (during the absence of the Indiges) and twice did they select one of said Planos as the best which, upon uncovering, both times, proved to be the said PATENT ARION Plano, awarding it "The Prenium" over all others for being the best Square Pinno known to them.

This trial was after Chickering & Sons 'Plano had received the Legion of Honor and Medal, and Steinway & Sons the Medal from Napoleon, and the Judges of said trial were EDWARD MOLDENHAUER, Prof. of Music, Musical Director and Originator of the New York and Brooklyn Conservatories of Music.

The most severe test a Piano can receive is constant use in a Conservatory.

READ THE FOLLOWING:

It affords me much pleasure to give you these few lines as a very sincere testimonial for the Piano Fortes of your manufacture. We have now used the "Patent Arion Pianos" in our Conservatories for a year, and have had a fair opportunity of testing their durability during that time. The Pianos have been played upon almost constantly, from morning till night, and a piano must indeed be a good one when it will bear constant usr without showing signs of the festion. As for remaining in time, it outrivals any Piano known to me. Lease & Gilbert, The peculiar sweetness of tone in the treble (as compared to other Planos with the ordi-The peculiar sweetness of tone in the treble (as compared to other Planos with the Gruinsry metal agraffe arrangement) is so sitking that I have had pupils remark, while taking their lessons, that although had at at home what they supposed to be one of the best makes of Pianos, still the treble was very wiry-toned compared with the "Arlon."

What makes them still more desirable is their uniform volume of tone, which enables an ariest to perform a composition in its true character.

In total, I can conscientiously endorse all that is claimed by the Arion Pian-Forte Company for their superb instruments, as I consider them superior to any other make.

Congratulating you upon the great success you have obtained in the manufacture of so perfect an instrument.

I remain yours, very truly.
